HF Study Action Items 2-6.pdf

Jeanne and Ramona:

It is unfortunate that the EPA HF study project schedule and Site Selection Criteria sent February 2, 2012 precludes using the originally proposed site located in the Haynesville Shale. We are disappointed that all our collective work associated with that site cannot be accomplished based on these documents, but will nonetheless work with you to find another prospective site.

We look forward to our meeting tomorrow to focus on selection of a new Chesapeake site for a prospective study. We will come prepared to offer potential sites based upon the new EPA schedule and selection criteria.

We remain hopeful to schedule a meeting soon to resolve other project related issues that were not specific to the study location, such as the QAPP. Perhaps we can schedule a follow up video conference for this coming Thursday? Please let me know of any additions/changes to the attached action item list.

Thank you,

Stephanie R. Timmermeyer
 Director - Federal Regulatory Affairs
 Chesapeake Energy Corporation

which may be a computer program. This attached computer program could contain a computer virus which could cause harm to EPA's computers, network, and data. The attachment has been deleted.

This was done to limit the distribution of computer viruses introduced into the EPA network. EPA is deleting all computer program attachments sent from the Internet into the agency via Email.

If the message sender is known and the attachment was legitimate, you should contact the sender and request that they rename the file name extension and resend the Email with the renamed attachment. After receiving the revised Email, containing the renamed attachment, you can rename the file extension to its correct name.

For further information, please contact the EPA Call Center at (866) 411-4EPA (4372). The TDD number is (866) 489-4900.
